

2024 AIA Buffalo/WNY Chapter Allied Membership Application

Dear Allied Member,

The local Buffalo/Western New York Chapter of the American Institute of Architects or AIA has seen major growth in not only our membership with just over 360 members in 2024. Digitally, we gained approximately 700 subscribers through weekly email subscribers, social media likes/follows and the community through social events. We want to give you a chance to be a part of our growth and help support our initiatives.

AIA membership for architects helps the chapter provide continuing education credits through programming and special events such as our service recognition event, Architecture Awards, Holiday party and more. Allied Membership is intended to provide industry partners with direct access to the Chapter leadership and in turn the local, state and national architecture community. It will also provide for the opportunity to be part of the CEU program for you, your employees and if desired as a provider. This year, we are working hard to add events to our annual calendar that will provide the opportunity for better communication between all our member types, allowing industry partners and local Architects to better promote themselves.

For 2024 we are offering two membership types that fall under the general title of Allied Membership. These memberships are specifically for non-AIA affiliated individuals or companies who have a direct interest in the profession and are offered directly by the local Chapter. We of course would love for all our industry partners to maintain a relationship with the chapter and those individuals and organizations who do, will receive special event discounts and opportunities to promote your firm to the architectural community and beyond.

Thank you for your past support of the chapter, we look forward to hosting you at as many of our events in the coming year as we can. Thank you in advance for your generous support.

Sincerely,

Robert A. Szudzik, AIA, LEED AP
AIA Buffalo/WNY President 2024
